

New Kent County Schools
Acceptable Use Policy

Purpose

New Kent County Public Schools provides students, employees and guests (users) with access to the school division's electronic communications systems and network, which includes Internet access, whether wired or wireless, or by any other means.

Computers, network, Internet, electronic communications and information systems (collectively IT systems) provide vast, diverse and unique resources. The wide array of information technology available to New Kent users introduces new risks and opportunities. The responsibility for appropriate behavior rests with all individuals who use New Kent IT resources and computing facilities. New Kent County Schools will provide access to the school division's IT systems in order to access information, to facilitate learning, to conduct research, and to support its mission and educational objectives. Levels of access are provided depending on assignment, responsibility and need to know.

Internet use and access is a privilege. New Kent County Schools' IT systems will be used primarily for education-related purposes and performance of school division job duties. *Incidental personal use* of school computers is permitted for employees so long as such use does not interfere with the employee's job duties and/or performance, with system operations, or with other system users. Personal use shall comply with this policy and all other applicable New Kent County Schools' policies, procedures and rules contained in this policy. Any communication or material used on the computer system, including electronic mail, may be monitored or read by school officials. All computer use will also comply with local, state and federal laws; and shall not damage the New Kent County Schools' IT systems. Students may only use the IT systems for educational purposes. Users may not use their personal computers to access the New Kent County Schools' Intranet, Internet or any other IT systems unless approved by the Technology Coordinator or designee.

New Kent County Schools shall protect its IT system against internal and external risks and threats. Users play an important role in protecting the school division's assets and in lessening the risks that can destroy these assets. Consequently, employees and students are required to fully comply with this policy, and to immediately report any violations or suspicious activities to the Technology Coordinator. Inappropriate use will result in disciplinary action by school officials and/or the revocation of those privileges.

Authority

The Division Superintendent shall establish administrative procedures, for the School Board's approval, containing the appropriate uses, ethics and protocol for the computer system. The procedures shall include:

- (1) a prohibition against use by division employees and students of the division's computer equipment and communications services for sending, receiving, viewing or downloading illegal material via the Internet;
